

Material & Fluid Conveyance

COMPOSITE & INDUSTRIAL HOSE

Parker Industrial specializes in rubber and thermoplastic hose for LPG, chemical, petroleum transport, steam, material transfer, food, air and water products

Design and manufacture fluoroplastic tubing and heat shrink PTFE, PFA, FEP, MFA, THM, ECTFE and PVDF, PEEK™, ULTEM® for use in a wide variety of fluid transport applications

MOVEMENT SYSTEMS

Total belting solutions. Conveyor belts, processing belts, timing belts and flat belts. In-house vulcanization and splicing capabilities.

Belt drive conveyors, chain belt conveyors, indexing conveyors

Industry leader for hose reels, cord reels and cable reels

Heavy duty, professional-grade hose, cord, and cable reels of the highest quality

Kuriyama

Thermoplastic hose and tubing, cam and groove and rubber products

The Right Connection™

Providing an array of cam and groove, specialty, industrial, tank truck, and sanitary fittings

High quality cam and groove industrial quick connect/disconnect couplings and replacement parts

Manufacturer of flexible products for many applications including air hose, ducting, fume, material handling and dust collection

Corrugated metal hose, strip wound metal hose, metal expansion joints, custom fabricated assemblies and specialty products

Composite hose assemblies for all types of applications which provide excellent chemical resistance and maximum strength and flexibility

Fire sleeves, fire blankets, heat tapes, sealants, festoons and custom products for heat protection

Specialized Japanese quick connect couplings for hydraulic and pneumatic applications
